

SEND Local Offer/SEN Information Report

LOCAL OFFER FOR CHILDREN WITH SPECIAL EDUCATIONAL NEEDS OR DISABILITIES (SEND)/SEN INFORMATION REPORT

This report is intended to be a 'one-stop shop' for parents, to find out about provision for children with Special Educational Needs or disabilities (SEND) within our school. It enables parents to see what we have to offer for children with additional needs, including how they are identified, and also signpost them in the right direction of appropriate help, services and extra support, should it be needed.

Victoria Academy is a fully inclusive school that ensures all pupils achieve their best personally, socially, emotionally and academically in all areas of the curriculum (regardless of their gender, ethnicity, social background, religion, sexual identity, physical ability or educational needs).

This document is intended to provide information about the ways in which we make sure we support all of our pupils, including those with SEN, so that they can reach their full potential. It may not list every skill, resource and strategy we use as these are continually modified according to the changing needs of our children.

Children are identified as having SEN when their progress has slowed or stopped and the interventions and strategies already put in place are not helping the child make progress. Once this occurs we talk to parents, assess the child, call in outside agencies for additional support and draw up an Individual Education Plan to help support them - recognising what their barriers to learning may be.

Children with SEN in our school make very good progress (other useful documents such as the SEN and Equality policy can be accessed via the school website). Our recent Ofsted Inspection (July 2014) recognised ***that the schools work to support pupils with additional needs is particularly stunning. Teachers and Teaching Assistant's work well together to provide a good level of support to pupils with special educational needs and they are provided with the support they need. Pupils from these groups learn well and make good and often excellent progress.***

If you would like any further information about what we offer at Victoria Academy please contact us on:
